

Gautam Gupta

Software Engineer

Experienced Laravel Developer with 4+ years of experience in PHP-based web application development, including 3+ years specializing in Laravel. Skilled in designing and developing scalable CMS, LMS, and HRMS systems using PHP, Laravel, MySQL, and REST APIs. Proficient in authentication, role-based access control, and API integrations. Strong hands-on experience across the full project lifecycle—from system architecture, database design, and backend logic to frontend integration with Bootstrap and Tailwind CSS. Adept at using Git, Docker, and Postman for version control, containerization, and API testing. Currently seeking challenging opportunities to apply technical expertise and leadership skills in delivering high-performance web applications.

Work Experience

Laravel Developer, SNVA Ventures

Aug 2022 - Present

- **HR CRM Portal (Employee Management)**
 - Developed full HRMS for internal company ops: employee CRUD, roster-based attendance, break panel with live tracking, chat system.
 - Managed employee/company assets, automated alerts, and role-based permissions.
- **CMS Job Portal for HR Management**
 - Developed a dedicated job portal for HRs with job posting, applicant filtering, resume uploads, and tracking tools.
 - Integrated HR consultation workflow and candidate progress visibility.
- **CMS Leads Sales CRM + LMS + Support System**
 - Architected & led development of an all-in-one platform for managing sales leads, training (LMS), and support.
 - Features: Lead capture, sales pipeline, course creation, progress tracking, ticketing, and live chat.
- **Task Management Panel**
 - Designed a task panel with role-based access for Admin, Manager, and Employee.
 - Managers could assign tasks to their team, with automated email and WhatsApp notifications on assignment, updates, and completion.
 - Ensured real-time collaboration and accountability through notification triggers.
- **Content & SEO CRM Panel**
 - Designed CRM system connecting SEO teams and content writers.
 - SEO request module, content submission, point-based review & feedback, content quality tracking.
